Jaymee Magaña

Santa Paula FFA

I am proud to be the fifth member of my family to join the Santa Paula FFA program but I am the first to raise a market animal for the Ventura County Fair. I may not have much experience with animals, but I can assure you that I will thrive throughout my high school years in the agriculture program. I really focus on my education and get excellent grades and maintain my GPA at a high level. My dream is to attend UCLA in the future and apply to better schools and hopefully get accepted.
