

# Santa Paula FFA: about us

## SAE Projects

Our chapter offers a variety of SAE Projects and opportunities for our members. We have provided many new possibilities and opportunities for our members to become not only more engaged in our program, but also our community.

## Community Service

Our chapter provides its services to various community events. We participate in the Senior Luncheon, Canned Food Drive, Santa Tours, Pancake Breakfast and other community affairs that are held throughout the year. We participate in parades and assist as a clean-up crew as well as having a float to show more of our program and what we do.

We are very excited to see what will come of this year! We are so delighted that we were able to attend the fair this year and are very grateful that as we work on rebuilding our program we get to experience wonderful opportunities such as these and create new memories.

## Officer Team

Our officer team is always working hard to make sure each and every one of our members is comfortable and as involved as possible. The team is always putting together new activities and events while also never forgetting to try and incorporate and listen to everyone ideas.

## Advisors

Every member of our chapter knows what we're about and our outstanding advisors work their very hardest not only to inform us about FFA events, but also other agricultural careers and opportunities for their students. This school year we have three wonderful advisors watching over our chapter. Mr. Flores, Mrs. Berrington, and Ms. Yamamoto. Thank you to our advisors for working extremely hard to make a comfortable atmosphere for their students!
